FULLSTACK DEVELOPER (M/F/D)

Come and join us in our mission to innovate the German construction industry for private homes! Our team is goal-oriented, creative and unconventional at the same time – which led us to come up with our product in the first place. You will work with people who determinedly face new challenges with a focus on technically innovative solutions to help our customers to build the home they imagine. Therefore at Almondia you will work with colleagues who value flexibility and independent thinking what exactly motivates them to fully achieve their potential.

To continuously improve our product and keep it reliable and enjoyable for our customers, we are looking to hire a **Fullstack Developer (m/f/d)** for our Berlin office as soon as possible.

IN THIS JOB YOU WILL

- Contribute to a very agile product development process, where we constantly build cutting edge new apps for our business and end customers
- Closly interact & report directly to the CTO of the company
- Integrate innovative products like Power BI, AirCall or Pardot into our current infrastructure to speed up our growth
- Ensure performance of our web apps to sustain Almondia's success and reputation
- Secure our IT infrastructure's reliability and manage our servers
- Optimize both customers' and colleagues' UX with our tools
- Represent Almondia at IT Events in order to inspire other big talents to join us

TO ACCOMPLISH THAT, WE BELIEVE YOU SHOULD HAVE

- 3+ years development experience
- Experience in developing Ruby on Rails applications
- Experience in developing front-end applications (e.g. React or Angular)
- Experience in administering and developing Salesforce (Apex) is a plus
- Experience in REST API Design & Development, Docker, AWS is a plus
- Love for agile and ever-changing environments as well as a conscientious and solution-oriented working style
- Fluent English or German skills

IN TURN, WE CAN OFFER YOU

- The chance to constantly learn new things and contribute innovative ideas and approaches to the entire company
- The possibility to find technical solutions for the house building market that no one have thought of so far
- A great team atmosphere with flat hierarchies as well as talented and lovely colleagues with whom you create an awesome and valuable product
- A nice office space with free drinks and fruit in the heart of Berlin-Kreuzberg near Moritzplatz, surrounded by a great number of lunch opportunities
- A competitive salary and a permanent contract

You can picture yourself working among a motivated bunch of like-minded people to make the world an easier place for those who want to build a house?

Then send an email to **Anne Israel** at **jobs@almondia.com** titled '**Fullstack Developer'** with your application, a copy of your CV and your references (as pdf). We look forward to hearing from you!
